

MSX I & II :

During the game, you are controlling your car with a joystick or one of the arrow keys.

UP ----- Accelerate

DOWN ---- Brake

LEFT ----- Left

RIGHT --- Right

Game rules :

You are racing in the world's craziest race : The American Cross Country Prestige Cars Race. This race is over three tracks throughout the United States: Arizona, Florida and the N.A.S.A.

If you are able to complete the race before the time runs out, you will get a faster car. You start with a PORSCHE 911 Turbo. Better than average drivers will receive a LAMBORGHINI Countach, and only the world's best drivers may drive a FERRARI GTO. (on the AMSTRAD, there's only one challenge : NEW YORK)

While racing, be careful not to collide with the other cars, each collision will slow your car down and you will lose time. Once you have passed a car, be careful to maintain your speed, do not allow the others cars behind you to catch-up and collide with you, this again will cause you to lose valuable time.

CRAZY CARS was designed to be as realistic as possible, therefore you must be careful to not lose

control of your car especially when you are jumping or cornering.

If you go off the track, your speed will decrease rapidly and your chances of beating the clock will be greatly reduced. Hitting bumps at high speeds will cause your car to fly through the air, but this can be used to pass a car.

To complete a stage, you have to pass the finish line before the time reaches zero.

PREPARE TO START, READY ?

GO!!!
